Address: House No 1– 43/7, Mondrai Village, Jangaon, Telangana - 506302

Professional Summary

Detail-oriented and results-driven **Senior QA Engineer** with extensive experience in leading QA teams and delivering high-quality software solutions. Adept in **manual and automated testing**, with a deep understanding of **testing methodologies** such as functional, regression, and scenario testing across **Windows and Linux environments**.

Specialized in **Wi-Fi technologies**, protocol testing, and device-level validation. Strong communication and collaboration skills with a proven ability to **drive quality, optimize processes**, and lead cross-functional teams in Agile environments.

Employment History

Senior QA Engineer

Isowhiz India Private Limited – Feb 2025 – Present

Project: *Panini America (AI Planet)*

Key Responsibilities:

- Implemented integrated Playwright automation to enhance end-to-end testing efficiency and reliability.
- Conducted **regression, smoke, and sanity testing** in a fast-paced **Agile** development environment.
- Participated in **daily stand-ups**, sprint planning, and review meetings.
- Logged and managed defects in **JIRA**, working closely with developers for timely resolutions.
- Authored and updated **user manuals** and documentation to support end-user understanding and product handover.

Senior Testing Associate (Team Lead)

Amazon Development Center, Chennai, Tamil Nadu

Sep 2021 – Feb 2025

Key Responsibilities:

- Led a QA team, ensuring **high testing standards** and **on-time project delivery** across multiple Amazon devices.
- Specialized in **Sanity, Functional, Regression, Exploratory, and Performance testing**, along with **802.11 Protocols, Mesh, and IoT Ethernet**.
- Validated devices including **Tablets, Fire TV, Audio Devices, and E-Readers**.
- Executed **Wi-Fi automation scripts** and ran **ACT (Automation Compatibility Tests)** to verify automation stability.
- Conducted **co-existence testing** and validated **TCP/UDP traffic transmission** using tools like **iPerf**.
- Provided **floor support** to Testing Associates, addressing technical issues and unblocking test execution.
- Audited test executions and provided actionable feedback to ensure QA compliance and reduce test errors.
- Sent weekly **JIRA triage reports** and monitored SLA adherence across the team.
- Captured test results, escalated failures, and performed **root cause analysis** for critical issues.
- Performed log analysis to identify and determine the root cause of issues.

Achievements:

- **Optimized test cases** to reduce redundant effort and classify issues efficiently (By Design, External).
- Designed an **Audit Strategy** to improve execution quality using TestRail, Quip, JIRA, and logs—reducing misses and raising overall team accuracy.

Education

Bachelor of Technology (B.Tech) – Computer Science and Engineering

Visvesvaraya College of Engineering and Technology

2016 – 2020

Certifications

- ✓ **Python Programming** – NPTEL (Certificate of Completion)
- ✓ **Manual Testing** – Certified QA Professional

Skills

Testing Areas:

- Application testing
- Mobile Testing
- Wi-Fi Manual Testing
- Co-Existence & Performance Testing
- Functional, Regression, Exploratory Testing

Tools & Technologies:

- JIRA, Confluence
- Wireshark (Wireless Sniffer)
- IPerf
- TestRail (if used)
- Agile/Scrum Methodologies
- Automation Compatibility Testing (ACT)

Protocols:

- TCP / UDP
- 802.11 Wi-Fi Standards
- Ethernet / IoT Stack
